State Board Issues Player Rule

In coordination with the IHSAA tourneys, Principal Victor DiCanio submits the following information for the benefit of boys who are playing basketball now and those who wish to play next year:
TO HIGH SCHOOL PRINCIPALS:

Every year the Board of Control finds it necessary to declare a large number of students ineligible for all athletics until the closing date of the basketball tourney of the following year, because participation in independent basketball out of season. February 25, the last day of the IHSAA Sectional Tourneys, is the close of the 1966-67 season for all independent basketball playing. This rule applies to seniors as well as all other students.

Mr. DiCanio also requests

T. Osmon Receives National Honor

Tim Osmon, senior, looks over plans for the National Red Cross Convention which he will attend in Dallas, Texas, April 23-26.

A greater honor even than being selected to attend the Convention was recently bestowed upon Tim. He has been chosen as one of 12 Red Cross members from the United States to attend Rendezvous '67 at Ottawa, Canada, for one month this summer, July 25 to August 25. He was chosen by the Northwestern Red Cross Area office, with the recommendation of the Daviess County Red Cross Youth advisory committee, for this honor.

The purpose of Rendezvous '67 is to create better world understanding. This will be students co-operation in making these tourneys the best ever at WHS.

The first sectional to be played in the new spacious 7090 seat WHS gymnasium begins tonight. The doors will officially open at 6 p.m. with Otwell meeting Washington Catholic.

The second game of the evening will find the Washington Hatchets facing the Plainville Midgets.

On Friday night St. John's Eagles and the Barr-Reeve Vikings vie at 7 p.m. for the honor of clashing with the winner of the Loogootee Lions and Shoals Jug Rox game, slated to start at 8:15.

Two games are on schedule for Saturday afternoon, starting at 12:30 p.m. with the championship game Saturday night at 8:15 p.m.

Winner of Saturday night's game will face the winner of the Switz City sectional in the first game of the regional next Saturday afternoon. In the second game, the winner of the Vincennes sectional meets the winner of the Sullivan sectional.

accomplished by having Red Cross Youth representatives from all over the world attend the conference in Canada. While in Canada, representatives will get a sample of Canadian hospitality by living in Canadian homes. The trip also includes a visit to the World's Expo '67, to be held (Continued p 4)

Student Hosts Give School Reputation

The whole student body is to be commended on the enthusiasm displayed at the pep session in preparation for the Hatchet-Cardinal basketball game.

In the six years that I, a senior, have been at this high school, I believe that this was the best pep session. The team, as well as the teachers, were taken by surprise at the actions of the student body.

If every pep session could be like the one previously mentioned, things would run much smoother and everyone would be happier.

I hope that a WHS principal never again has to stop a pep session to tell the kids of this school to start showing spirit. This year the Pep Club has been well organized and has done an excellent job at all ball games.

Although this has not been an outstanding year for the team, we have tried our best as I know the Pep Club has also. As we all know, the real season is here. The Sectional opens this evening.

The student body should know that this evening, as always, the Hatchets will come to win.

by Scott Alford, Sports Editor

SCHOOL PRIDE PAYS FOR ALL

Hatchet fans are again preparing for the annual tournament of the IHSAA and will be looking forward to the tip-off of the first sectional play in the new gymnasium.

Since the beginning of Washington's sectionals, WHS

students have always shown kindness and concern toward visiting schools, and win or lose, remain true hosts.

We are proud of our school, our new building, and its equipment. We are also proud that this year, we not only will host a sectional, but a regional as well.

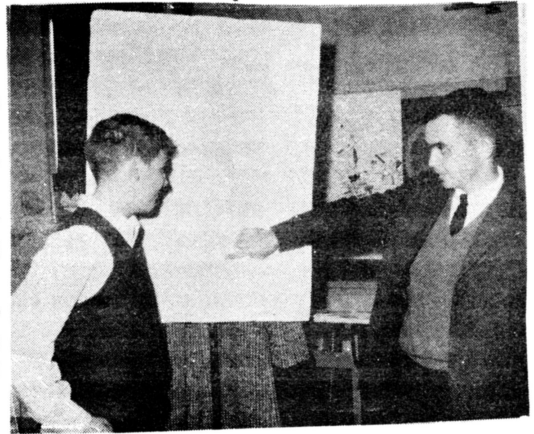

Much is expected of WHS students in welcoming the participating schools into our tournaments.

This year, let's strive to make our sectional-regional debut something that will set a proud example for future tourneys.

Beat 'Em Hatchets

WHS Graduate Tells Of Vietnam Experiences

Captain Chickedantz (right) points out the area dividing North and South Vietnam to seventh grader, Ted Hazel.

U.S. Airforce Captain Erik Chickedantz, former WHS graduate and graduate of West Point Military Academy, recently returned home from assigned duty in Vietnam. He honored Mrs. Dick Gill's social studies classes by speaking about and showing colored slides of the country.

Mr. Chickedantz explained many problems of the people of North and South Vietnam; their living working, and geographic conditions. He stated, "The standard of living in Vietnam is extremely low."

Even though the people in Vietnam are stricken with poverty, some good exists in the country, and the United States is trying to help the people.

Captain Chickedantz, who was a U.S. advisor to the Vietnamese troops, spent about a year living, talking, and working with the people of South Vietnam. His mastery of their tongue was evident as he started speaking to the class in Vietnamese.

The Vietnamese people live in close housing districts and families usually include all living relatives. The main religion of their country is Buddhism. The people

Physics Classes Study School Heat Many New Subjects Offered Next Year

Physics students were recently given an interesting tour of the school heating plants.

In the old boiler room, students learned that the type of heating system is called Low Pressure Steam. The pressure is kept between 2 and 3 pounds per square inch at all times. The boilers, of which there are two, are coal fired and stoker fed.

Janitors usually come in between 1 and 2 A.M. to get the fire going so the building will be warm when teachers and students arrive. In zero weather, however the boilers are fired around the clock and use about eight tons of coal a day!

The ashes, the students discovered, must be cleaned out every day and the flues must be cleaned every other week with a wire brush. This job takes three hours.

In addition to heating the

old building, the boilers are responsible for heating the old gym. Steam is piped to a converter located in the basement of the old gym. There hot water is pumped through the pipelines to heat the gym. This is one reason why the gym is so cold during mornings.

The heating system in the new building is much different. The building is heated by hot water which is heated by gas. The water is kept at an almost constant 225°F and the pressure is kept around 30 pounds per square inch. Thermostats are controlled by compassed air instead of by electricity as they are in homes.

Physics students found that a booster pump is used to send water pressure through the new gym. There are 150 pounds of pressure forcing the heat up from the basement to the main floor. The pressure then drops down to 50 when it gets there. The booster pump brings the pressure back up and heat is sent through the gym.

The tour wrapped up a unit study of heat in the classes.

JOHN POTTER, senior, and Kathy Monts, junior, take their band instruments out of the new convenient storage compartments in one of the band practice-storage rooms.

Industrial arts will offer ten new subjects next year in drafting, architecture, engineering, electricity, and graphic arts.

Either French or German will be offered in the language department.

Art appreciation, ceramics, and crafts will be three new subjects offered in the art department.

Business department lists four new subjects dealing with communication, personal business law, salesmanship and second year bookkeeping.

Applied math will be offered to students who want further education in this field but do not want to take advanced math.

Agricultural occupation, a distributive work course, in which a student would work at some related agricultural job part of the school day but be supervised by an agriculture teacher is also a possible addition.

Journalism I, a pretraining course for Ink-Ovation staff and an introduction to all types of publications and news media is offered. Students interested must sign for this course no later than next week if interested.

The guidance office took a survey recently to see if enough students are interested in these subjects. Only those subjects in which enough students have signed up will be offered next year.

SAXOPHONE QUINTET WINS STATE FIRST DIVISION

The Washington High School saxophone quintet, composed of seniors Dennis Hamm, Phyllis Allison, Candy Terrell, Kay Mills, and Kathy Horrall, rated a superior first division at State Solo and Ensemble contest at Butler University, Indianapolis last week.

JUNIOR HIGHS RECEIVE LETTERS 'ROUND THE WORLD

The junior high social studies classes, taught by Mrs. Dick Gill, are corresponding with pen pals from all over the world.

Mrs. Gill's students who are participating in this project have gained much knowledge about other countries and their customs.

Names were obtained by Mrs. Gill from an agency in Minnesota for those who wanted to participate. Approximately 75 per cent of Mrs. Gill's students received names. Some of the countries that are being written to are Japan, South Africa, Canada, Australia, and countries in Europe and South America.

After receiving letters from their pen pals, students may read them in class and locate the city and country on the world map. It is up to the student whether or not he continues writing at the end of the school year.

Science Club Outline Plans

The recently organized Science Club seems to be starting out on the right foot this year with plans which should persuade any student to take part. Now a member of the National Science Clubs of America, the organization is striving to fulfill its purpose of promoting interest in science outside the classroom by inviting guest speakers, making field trips, providing student demonstrations, and visiting the tri-state science fair in Evansville.

Brent Opell, a senior and past president of the science club, demonstrated the procedures and techniques for embedding biological specimens in plastic as the highlight of the February 8 meeting. For the March 7 meeting, the club plans to feature Mr. George Seketa, state biologist in the Glendale area who will discuss and show slides of the recently completed Glendale Lake. Future meetings will feature prominent men in various fields of science with talks and demon-

FORMER GRAD ADVISES

FUTURE TEACHERS' ASSOCIATION

Rosemary Schroeder, a WHS graduate and past president of the Future Teachers of America, was guest speaker for last week's FTA meeting. Rosemary, an Indiana State University elementary education major, is now doing her student teaching in the second grade at South Elementary School. She spoke to the future teachers about her experiences as a student teacher and gave them hints on adjusting to college life.

Plans for the coatcheck during the sectional and regional were discussed. Members not present should check with Mrs. Ruth Jackman on the dates that they are to work.

strations interesting to all.

Newly elected officers of the Science Club are: Mike Loudon, president; Rusty Scott vice-president; Gloria Colbert, secretary-treasurer, and Tim Fern as reporter. Charter members of the club are: Denny Arney, Kent Allison, Jim Crane, Roger Clark, Rick Buzan, Sandra Dougherty, Rudy Haldiman, Brent Opell, Robert Schue, and Douglas Scott.

Membership and interest in the Science Club and its activities are growing. The next meeting will be March 7 at 7:30 pm in Room 37. It promises an interesting program.

THREE PHASES STUDIED IN MECHANICAL DRAWING

Pictorial drawing, home designing and machinery drawing are the three subjects being studied in mechanical drawing classes, taught by Mr. Eugene Jones.

First year classes have studied orthographic projection, sectioning and now pictorial drawing. Pictorials are drawings of isometric pictures showing three faces of an object.

While the first year studies pictorial drawings, other classes are studying more complex drawings, as home designing and machinery drawings. Home designing includes floor plans and different styles of home structures. Students are planning to design their own houses on a scale model.

Machinery drawing classes are learning to draw complex machines.

IN THE SECTIONAL, HATCHETS!

SANDY'S SHAKERS

(overheard chatter)

The moon was shaped like an egg and it made me sick!

As an example, let's say there's a married man who has a wife.... Well, I guess he would have one, wouldn't he?

It shook so much that it killed itself!

His shirt looked like it was being devoured by a gigantic paramcium.

Use a hat pin if you're really desperate.

There was Peaches grinning at Tangerine like a possum.

Everytime I speak to him, his glasses steam up!

Did you say he drove to school in a fish? No, a Baracuda!

He reminds me of a big coke machine!

I think I need an engineering degree to get into this lab apron.

Who says Sandy's Shakers aren't overheard chatter?

Quit crying and wash the blood off!

THREE PASS 100 TEST

Three more senior shorthand students, Judy Collins, Beverly Fyffe, and Sharon Mills have passed the 100 word a minute shorthand dictation test with an accuracy of 95 per cent or better.

The three minute speed tests have begun in the beginning shorthand classes. Outstanding achievements winners will be listed later.

OSMAN from p 11 in Montreal, a journey up the St. Lawrence Seaway and sight-seeing at Niagra Falls.

Tim has been president of the school Red Cross Youth Council as well as the County Red Cross Youth Council for the past two years.

He was one of the chapter youth to attend the Red Cross youth Leadership Development Center at Miami University, Oxford, Ohio, in the summer of '64. Last summer he was a delegate to Boys' State.

The Student Scope

QUESTIONS--ANSWERS

What is the rule that prohibits students from going to their lockers between classes?

There has always been a rule at WHS prohibiting students from going to their lockers between classes because of the time element in getting to classes on time. It is a law that all school areas must be supervised and teachers do not have time from classes to take care of locker areas between and during classes.

Why don't we have more athletic opportunities available for students, such as wrestling, soccer, and tennis?

Teams, such as these, are a "self-start" program. WHS's golf team is such an example. If enough students show interest in such a program, they should find a teacher-sponsor, and bring the well-organized plans to Principal DiCanio. However, it should be realized that a wrestling mat alone would cost about \$2,000. Why isn't there a more advanced senior course in English offered for those who wish to continue their formal education?

Mrs. Dant has provided a plan where ambitious seniors may further their knowledge of literary background by doing special assignments. Why isn't there a more varied language curriculum offered? Why don't we have language laboratories? (see col. 3)

FFA's Honor National Week

Vocational agriculture students in Washington High School have joined Future Farmers of America members throughout the nation in activities to focus attention on importance of agriculture during National FFA Week this week.

"Agriculture...Strength of America" is this year's FFA Week Theme. Boys have undertaken a campaign to inform the general public about the importance of the agriculture industry to America, the growing need for farming, and of the numerous and wide variety of opportunities existing in the broad field of agriculture for young men who have a background of farm experience and training.

Locally, members of the Washington FFA chapter have a window display at the Citizen's Bank this week and a radio program on WAMW and WFML radio station every day.

Membership in FFA is made up of high school students in vocational agriculture. Activities are designed to help develop rural leadership, and to help stimulate the students to better achievement in study and work towards successful establishment in farming or some other agriculture occupation.

WHITE STEAMER

HAMBURGERS ARE BEST!

STUDENT SCOPE (from col. 1)

With completion of the new school, both French and German may be added to the curriculum if enough students are interested and a teacher can be found. The new school will have a language laboratory.

Why isn't the Student Council allowed to function as a Student Council should?

The Student Council members have to have enough interest and willingness to work and get things done, and as a result, many things can be possible.

With co-operation and good behavior of students, many advantages will be possible.

If you go to summer school do you still earn credit?

Yes, if you enroll in Driver's Education and complete the course, you will receive one fourth credit toward graduation. Typing offers one credit if the summer course is completed.

Will Latin II be offered in summer school?

No, because a full year's course cannot be covered in such a short time.

HATCHETS OUTPLAY BLOOMFIELD

The Washington Hatchets never allowed Bloomfield a place in the home game two weeks ago. They defeated the Cardinals, 68-48.

The Hatchets, hitting for their highest field goal shooting percentage of the year, dropped in 29 of 53 attempts for a sizzling 54 per cent. Bloomfield was limited to only 15 field goals in 42 attempts for a good 35 per cent average.

Scott Alford led the Hatchet scoring attack with 29 points, 22 of which came in the second half. Bill Walton finished the game with 20 points and Larry Frye dropped in 11.

The Hatchets allowed Bloomfield only 15 rebounds while pulling down 30 for themselves.

Larry Frye paced the Hatchet rebounding with nine while Scott Alford and Bill Walton each had six. Tom Pritts and Steve Allen grabbed four each to lead the Cardinals.

Buddy Hayes led the Cardinal scoring with 14 points. He hit 10 free throws and two

field goals.

The Hatchet B-team had little trouble with Bloomfield as they won the preliminary 40-26.

NEW ALBANY 87; HATCHETS 75

New Albany defeated the Hatchets, 87-75, in the last game of the regular season at New Albany last Saturday.

The Hatchets had an excellent balanced scoring attack with Larry Frye leading the way with 24 points. Frye was followed by Scott Alford, Bill Walton, and Larry Buhr with 15 points each.

New Albany was led by Greg Neeley with a game high of 28 points.

Larry Frye led the Hatchet rebounding with 12. Scott Alford grabbed 11, and Larry Buhr pulled down 9.

The Hatchet B team was defeated in a hard fought contest, 39-34.

Fred White led the Hatchet scoring attack with 13 points. White was followed by John Coleman with 9 points.

David Ostby led in rebounds with 9 while Fred White totaled 8.

BASEBALL TRAINING
TO START MONDAY

With basketball season growing near an end, it is again spring training time for the WHS baseball team.

Practice starts next Monday after school. Anyone interested should see Mr. Gerald Butcher.

Sectional Preview

A summary of teams in the Washington Sectional, along with their season's records and their leading scorers is as follows:

LOOGOOTE (19-1)

The Loogootee Lions will be bringing the best record into the Sectional with 19 wins and only 1 loss. They are also the pre-sectional picks to win hands down.

The Lions' first Sectional opponent will be the Shoals Jug Rox. Loogootee has twice previously defeated the Jug Rox in regular season play, 91-58 and 78-47.

The Lions are led by Steve Brett and Kenny Frye, a pair of senior guards, with averages of 15 points apiece. Pat Pankey is close behind with a 14 point average.

OTWELL (13-7)

Otwell will open the Sectional against Washington Catholic tonight.

Otwell was defeated by Washington Catholic around mid-season, 71-60, but the Millers were without Don Hudson, one of their key starters. Hudson was out of action at that time with an eye injury. He is back in now and will be playing in the Sectional.

The Millers are led by Steve Barrett, averaging 15 points a game and Rick Weisman, averaging around 13 points per game.

SHOALS (8-12)

The Shoals Jug Rox were crippled at the opening of the season by the loss of three starters. Two of the starters were unable to pass the physical examination and (Continued p 7)

PREVIEW from p 6

the other starter, Bob Sutton, moved to Florida. Sutton was the leading scorer in this area a year ago.

Rex Wilson is the leading scorer for Shoals this season with an 18 point average.

ST. JOHN'S (4-16)

St. John's Sectional opponent will be the Barr-Reeve Vikings. These two teams have met twice during the regular season with the Vikings coming out on top both times. The first game was won by a score of 60-54 and the second, which was in the Barr-Reeve holiday tourney, 54-53.

Dave Burch is the leading Eagle scorer with a 14 points per game average.

WASHINGTON CATHOLIC (14-6)

The Cardinals have the two tallest players in the Sectional. They are Mike Wichman, a 6' 4½" senior, and Gary Guy, a 6' 5½" senior.

The Cardinals are picked as one of the favorites for the Sectional title.

Washington Catholics are led by Mike Wichman with an 18 point average and Gary Guy, currently averaging 15 points per game.

BARR-REEVE (14-6)

The Barr-Reeve Vikings are bringing one of the most improved teams into the Washington Sectional.

Frank Blake, an outstanding senior forward, leads the team with a 19.3 game average. Blake is followed by John Knepp, averaging 11.4

points a game and Joe O'Connor, a 6'4" center, is averaging 10.2 points a game.

PLAINVILLE (8-14)

The Plainville Midgets have lost their last five games of the season. Earlier they had advanced to the semi-final round of the Wabash Valley Tournament before being taken out by powerful Monroe City.

Plainville is to meet the Washington Hatchets in the second game of the Sectional. These two teams did not meet in regular season play.

The Midgets are led by Steve Fisher, a sophomore, averaging 12.4 points per game. Bob Taylor and Tom Fidler help round out the Midget scoring with averages of 11.7 and 11.0, respectively.

WASHINGTON HATCHETS (13-7)

The Hatchets have had an up and down season but have been coming on strong lately.

The Hatchets are led by Scott Alford, averaging 18.3 points per game and Larry Frye scoring at a 17.3 norm. Bill Walton and Larry Buhr have contributed their share to the scoring by averaging 13.7 and 8.1 points per game, respectively.

VIETNAM EXPERIENCES (from p.5) worships their ancestors as we worship God in America. The poor, uneducated inhabitants do not have many luxuries, such as radio or television, except a few who live in larger cities. Because of their ignorance of medicine and sanitation, life expectancy averages only 37 years.

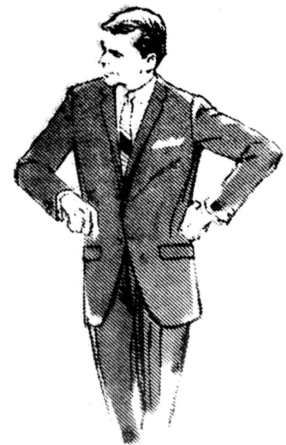

These points of living conditions, explained by Chickedantz, and supplemented by color slides, were interesting and aroused many questions for the speaker to answer.

Concerning the war, Captain Chickedantz expressed his opinion by concluding, "For the last two years, the United States has increased its commitment. Much progress has been made toward defeat of communist aggression and advancement of the standard of living of the Vietnamese people and their government."

Cheerleaders Have Mammoth Task

Even though WHS cheerleaders do not get points or compete with other teams, this year's group of female flippers: Candy Terrell, Ellen Green, Rita Smith, Jan Williams, and Kathy Monts deserve a very tall trophy for their untiring efforts in promoting school spirit.

These girls have had a big task, and this is exactly what they have made it. They often practice every day. In order to learn new yells, they attend summer camps, conventions, read cheerleading magazines, and use their thinking machines, all of which provide knowledge for the designing of their gymnastics, known as "straight arm college cheerleading," which they perform so well.

These cheerleaders possess a high spirit of enthusiasm and nothing makes them feel better than to see school spirit high. "We are proud of our school and team as everyone should be," explained the girls.

In order to keep on the ball, the girls discipline themselves with a demerit system. Captain Candy, when asked if she ever has any trouble with the girls, said

"I tell them to go warm up and they just sit around!" Shouted Kathy, "I'm the secretary--I keep record of the demerits;" Jan, "I'm first lieutenant;" Rita, "I'm a cheerleader!" Ellen said nothing (she must have 10 demerits!)

The girls are looking forward to the basketball tournaments, which Candy calls "Hoosier Hysteria." "We want our team to get rewarded for their season," the girls remarked.

WHS cheerleaders, decked out in one of their 10 combinations of four outfits, always do their best to represent the school, of which they are so proud.

They do not want any personal cheers; those are for the team.
